## Site Access & Readiness Installation Day Protocol and Charges

Dear Valued Customer,

As we approach your upcoming installation, we want to take this opportunity to clearly outline our expectations regarding site readiness. This is an important part of our service process and helps to avoid unnecessary disruption, delays, and costs.

Please note the following:

### Site Access & Readiness – Important Notice

Where an installation date has been confirmed, and Signs Express Central Lancashire & Southport has:

- Submitted RAMS.
- Confirmed the booking with your team.
- Allocated a full day of labour (typically two installers).

it is assumed that the site will be fully ready for our arrival.

### This includes:

- Clear and safe access to the installation area.
- Required inductions, passes, or biometrics arranged in advance.
- No obstruction from other trades or ongoing works.
- Completion of all enabling works or structural preparations, including a minimum drying period of 7 days for any freshly painted surfaces prior to the installation of wall coverings or graphics.

### Call-Out Charge for Abortive Attendance

Should we arrive on site and be unable to begin or complete the scheduled work due to any of the above conditions not being met, a call-out fee of **£800.00 + VAT** will be invoiced. This fee reflects the cost of reserving a full day of installation labour which, under such circumstances, cannot be reallocated.

To avoid this charge, please ensure the site is fully prepared and accessible as agreed. If the installation date needs to be changed, we kindly request at least 48 hours' notice **via Email**.

We appreciate your cooperation in helping us deliver a smooth and efficient service. If you have any questions or foresee any issues regarding access or readiness, please contact us as soon as possible.

Kind regards,

Matt Rutledge  
Managing Director
